

Community Design Presentation Comments

Program Uses/ Public Amenities

Love the food vendor idea

Love to see a Jazz club

More bike lockers and indoor bike parking

Livable wage- can people who work here afford to live here at market rate prices.

Really love the playground idea

Can we add a swimming pool?

Art store with local artists

Fast food but local

Local foods

A movie Theater would be nice

A very nice water fountain in the middle of the mall

We need a kids play area

Security/ Access

What are the mall planners ideas for the event + rental area? What kind of programming?

What's the best way to create a safe place for teens to hang out?

Farmers market yes!!

Love the winter's farmer's market space!!

More food stations and a pharmacy

More and better restrooms

Keep north and south arcades open 24/7

Movie Theater similar to Majestic 10 in Williston

Allow dogs and indoor green space

Please make sure range of income for middle “housing” 50-100,000, not up to 40,000 like VT Health Connect. Be realistic for current economy

Senior center/ multicultural center

Department store

Urban Design

Solar Panels on the roof

More solar panels

Underwhelming design (visually) but addresses needs + amenities

Concerned about the height of the building (blocking the waterfront)

Deliberate smart placement of HVAC’S

With all the glass- how will you heat the space? Solar panels?

Remember that HVAC and ventilation by noise, consider smaller location + installation of quiet HVAC

I recently read that part of the project includes a 14-story building. This exceeds the height of any building in Burlington. I do not think that a building of this height should be allowed.

Transportation and Mobility

Handicapped parking

More bike lockers and indoor bike parking

Open Pine Street corridor and let buses through

Open channel on Pine Street so buses can get through

Reestablish through road on St Paul Street

What about skateboarders as transportation

Pass through Bank Street and Cherry Street

Your plan as presented seems great. I don't use the mall much- I'm not a big shopper, so it's mainly an obstacle. This plan improves that. I mostly bike and walk downtown and this plan provides for those.
